Professional Summary

with over 9 years of professional IT experience, including 5 years as Power BI, expertise in transforming data into actionable insights through data visualization, excelling in DAX and Power Query, and achieving a 20% increase in report efficiency. Proven expertise designing interactive dashboards, Skilled in Row-Level Security, workspace management, and automated report distribution. Based in Germany, seeking Power BI Consultant roles, combining technical depth with strong stakeholder communication.

Professional Work Experience

Relocation & Professional Development

Plattling Germany | July 2025 - Present

- Fully relocated to Germany and align international BI expertise with local senior-level market standards
- Upskilling in Microsoft Fabric, Azure, and SAP architectures while attending a certified German integration course to ensure seamless team communication.

Power BI Developer - Tata Consultancy Services

Hyderabad, India | Apr 2021 - Jun 2025

- Converted complex business requirements from C-level stakeholders into scalable Power BI architectures for a global semiconductor client (200 internal users).
- Designed and optimized 15+ interactive Power BI dashboards, reducing data processing time by 30% and significantly accelerating cross-functional executive decision-making.
- Implemented robust Row-Level Security (RLS) frameworks and structured Power BI Service workspaces, reducing data access vulnerabilities to 0% across global teams.
- Configured end-to-end scheduled data refreshes and automated report distribution via Power BI Service, cutting manual reporting efforts by 15 hours per week and ensuring 100% data timeliness

Data Analyst - Cognizant Technology Solutions

Hyderabad, India | Aug 2016 - Dec 2020

- Prepared and delivered weekly operational and compliance reports for senior management, maintaining a 99.8% data accuracy rate to support critical corporate risk decisions.
- Analysed over 5,000+ annual IT service incidents using the GSD Remedy in-house tool to identify 4 recurring process bottlenecks and translate them into actionable improvement strategies.
- Coordinated reporting workflows across 3 separate cross-functional vendor teams, reducing cross departmental communication lag by 20% and building a solid data foundation for the BI migration

Facility Operations Analyst - Schneider Electric

Hyderabad, India | May 2015 - Jul 2016

- Logged, tracked, and resolved critical enterprise operational incidents via internal ticketing tools, consistently exceeding the company's SLA closure target by 12%.

- Assisted in the successful installation, configuration, and testing of security automation hardware, managing biometric access administration for a facility of over 1,000+ employees.
- Collaborated daily with 5 external vendors and internal facility teams to guarantee 99.9% uptime of enterprise-critical systems, including CCTV and building automation networks
